<p>20 Weeks Compliance</p> <p>Year ● 2019 ● 2020</p>	<p>Narrative</p> <p>The Compliance Rate at the end of August stands at 44.0%. This is a significant and continual increase since March. The ambition is to achieve 45% in the 2020 calendar year, a rise of over 15% from 2019. However, the significant number of cases that were not processed in previous years and have not been address will continue to have a dampening effect of compliance rates for the remainder of 2020.</p>
<p>New EHCPs Issued</p> <p>Year ● 2019 ● 2020</p>	<p>Narrative</p> <p>There was a significant increase in plans completed in March (195) due to our position of finalising the bulk of the non-compliant cases. The number of plans issued per month has resumed to a more consistent level in April (63), May (81), June (57) and July (60). The team will aim to complete a minimum of 45 EHC plans each month this year.</p>
<p>EHCP Cohort</p> <p>AcademicYear ● 18/19 ● 19/20 ● 20/21</p>	<p>Narrative</p> <p>The number of CYP with an EHC plan continues to rise and we are expecting 10% growth per year.</p>
<p>Permanent Exclusions for EHCP</p> <p>AcademicYear ● 18/19 ● 19/20 ● 20/21</p>	<p>Narrative</p> <p>Permanent Exclusions (PEX) for the academic year 2019/2020 of statutory school age pupils stands at 55 to date (02/09/20), 4 are still to complete the process (On capita there are also an additional 3 post 16 PEX) due to Covid. There are no PEX for those with EHCPs. Of the 55 excluded we have 51 secondary and 4 primary phase. Of the pupils excluded who have completed the process and come off the school roll, of which there is</p>
<p>Persistent Absence for EHCP</p> <p>AcademicYear ● 18/19 ● 19/20</p>	<p>Narrative</p> <p>The data for April until summer demonstrates the impact of Covid-19 on pupil attendance. Absence cannot be recorded in the same way as pupils have not been legally required to attend school at this time. Attendance data has been collected but this cannot show persistent absence. From September onwards data will be collected in the usual way. Resources will be targeted at pupils and groups who had poor attendance pre-Covid 19.</p>

CME cases are subject to a robust procedure based upon on legislation and DfE guidance which includes referrals through a reformed referral process, thorough internal checks, visits where required and checks with a number of external partners. There are still pockets of poor practice and</p>

We continue to robustly challenge parents through the use of school attendance orders where support avenues have been exhausted. During Covid-19 this process has changed, but the team will still do everything to act where it receives information that suggests a child is not in receipt of an efficient full time education suitable to age, aptitude</p>

Compliance Completion Rate – as of the 1st September 2020

There continues to be an increase in the compliance rates which shows a positive trajectory from March onwards. The SEND Assessment Team have already finalised more plans this year (632 to date) than for the whole of last year (427). This is an extremely impressive position and shows the continual commitment of the team to improve.
