

Our Interns have now completed at least one work rotation and some have started on their second. You may not have realised but it could have been a Project SEARCH intern who checked you in at reception or saw you through the security gates at the entrance. They have helped to keep the floor and toilets clean and tidy. You may have had your dinner, or coffee prepared by one of them or they may have helped you to locate a book in the library. If you called on IT, SEN, marketing, or HR services one of our interns may also have been involved in helping with your query. We want to thank all the staff who have contributed to supporting our interns in their work placements so far. We could not do this without your support.

### Term 3 Spotlight – Introducing Sam

Sam carried out his first rotation in the Trinity café. He picked up lots of skills as a kitchen porter. He really enjoyed his time with the excellent staff who work in there. He started his second placement in January. You may have seen him working in the library where he is now developing a new set of skills.

Sam said “I enjoyed the placement at Trinity, I loved making the crumble. In the library I like sorting out the books and working on the desk adding book and graphic novel descriptions on the computer”.

Do you know a young person aged 18-24, with a learning disability or autism? Do they hold current EHCP? Are they thinking about paid employment? 70% of our graduates go on to full time paid work. We are now looking for our new recruits for Sept 2022.

### BASE ROOM

This half term the interns have been concentrating on their Gateway Employability Qualification. They have almost completed their first unit which looks at conduct at work. They have 2 more units to complete after the half term break. We have also been looking at LGBTQ+ issues, sexual health, internet safety, and cyber bullying.
