

Clinical Partners
It's about getting better

Our mission is to help people and families who are experiencing mental and emotional difficulties to get better.

What we do...

Clinical Partners provides expert mental health advice and onward referral to our nationwide group of senior clinicians. Our Partners are all highly experienced clinicians, members of the relevant professional bodies, fully insured and security checked.

- ✓ Our partners provide a range of services for adults and children, including psychiatry, psychology and psychotherapy, medico legal services and Locums, amongst others.
- ✓ Calls are answered by a clinically trained and qualified adviser who guides patients through the entire process, from advising about treatment options to arranging appointments.

Values

Integrity

We are scrupulously honest in our dealings with everyone.

Quality

We and our Partners must provide the level of service and effectiveness that we would want for our own families.

Care

We always treat our clients, our Partners, and our staff respectfully and fairly.

21 locations nationwide
