

# Supported Internships in Bradford

Supported Internships are based primarily at employer’s premises with on the job training and support. More information on these programmes is available from [Preparing for Adulthood Website](#) and their [Factsheet](#). The most important requirement of a Supported Internship is that the young person wants to and is ready to work, but may need extra support to do this.

There are a number of providers that deliver Supported Internships in Bradford, as well as other pathways to employment that include work trials and/or work experience, including:

- [Project Search - BRI](#) please [see their video here](#)
- [Project Search - Hockney](#)
- [Project Search – BDCT \(coming soon, 2022/2023\)](#)
- [ShIPLEY College](#) please [see their video here](#)
- [Keighley College](#) please [see their video here](#)
- [Mencap](#) please [see their video here](#)
- [Craven College](#)

Each provider has their own unique selling points, and the Council is completely impartial. The structured Study Programme includes functional skills English and Maths, preparation for work and on-the-job training and support for both the Intern and the Employer. The Learning Provider (whether it be a College or Training organisation) together with an experienced Job Coach will work closely together to facilitate learning and personal development.

Supported Internships work best when a person’s aspirations and skills are matched to an employer. For the employer, the Internship must meet a real business need and provide the potential of a paid job at the end of the Programme, should the intern meet the required standard

Provider	Access
